APPLICATION FOR PERMIT TO APPROPRIATE THE PUBLIC WATERS OF THE STATE OF NEVADA

Date	e of filing in State Engineer's Office
Reti	rned to applicant for correction
Cor	rected application filed.
Мар	January 31, 1972 under 26507
	KENNETH I FILSWORTH
	The applicant KENNETH L. ELLSWORTH
	Star Route Lovelock Street and No. or P.O. Box No. City or Town
	Nevada, 89419, hereby make application for permission to appropriate the public State and Zip Code No.
wate	ers of the State of Nevada, as hereinafter stated. (If applicant is a corporation, give date and place of incorpora-
tion	; if a copartnership or association, give names of members.)
	war and the state of the state
ı.	The source of the proposed appropriation is Underground Name of stream, luke or other source.
2,	The amount of water applied for is 6.5 cfs second-feet One second-foot equals 448.83 gals. per min.
	One second-foot equals 448.83 gals. per min. (a) If stored in reservoir give number of acre-feet
•	
3.	Irrigation, power, mining, manufacturing, donustic, or other use.
4.	If use is for:
	(a) Irrigation (state number of acres to be irrigated) 160 acres
	(b) Stockwater (state number and kinds of animals to be watered) horses, cattle and up to 1,000 hogs
	(c) Other use (describe fully under "No. 12, Remarks")
	(d) Power:
	(1) Horsepower developed
	(2) Point of return of water to stream.
_	The water is to be diverted from its source at the following point: NE%, NE%, Section 36; T29N, R32E,
Э.	
	M.D.B. & M. or at a point from which the NE corner of said Section 36 bears N Describe as being within a 40-acre subdivision of public survey, and by course and distance to a section corner. If on unsurveyed land,
	64 ⁰ 23 ¹ 30"E 986 feet.
6.	Place of use NE's Section 36, T.29N. R.32E. M. D. B. & M. Describe by legal subdivision, if un unsurveyed land it should be so stated.
7.	Use will begin about lanuary 1. and end about <u>December 31.</u> , of each year. Day and Month Day and Month
8.	Description of proposed works. (Under the provisions of NRS 535.010 you may be required to submit plans and
	specifications of your diversion or storage works.) drill well, pump and motor.
	State manner in which water is to be diverted, whether by dam or other works, whether through pipes, ditches, flumes, or other conduits.
	State insumer in which water is to be diverted, whether by dam or other works, whether through pipes, duches, numes, or other condums.
	4

9.	
10.	Estimated time required to construct works. 3 years.
11,	Estimated time required to complete the application to beneficial use
12.	Remarks: For use other than irrigation or stock watering, state number and type of units to be served or annual consumptive use.

	APPROVAL OF STATE ENGINEER
	THE ENGINEER
follo	This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the swing limitations and conditions:
	This permit is issued subject to existing rights. It is understood that the amount of water herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the amount of water actually placed to beneficial use. It is also understood that this right must allow for a reasonable lowering of the static water level. This well shall be equipped with a two (2) inch opening for measuring depth to water. If
The not t	the well is flowing, a valve must be installed and maintained to prevent waste. A totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of water begins, or before the Proof of Completion of Work is filed. This source is located within an area designated by the State Engineer, pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times. amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and to exceed 2.7 cubic feet per second, but not to exceed a yearly
The not t	A totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of water begins, or before the Proof of Completion of Work is filed. This source is located within an area designated by the State Engineer, pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.
